Collective services

Negotiation of collective bargaining agreements

As the largest union in most sectors, the OGBL negotiates about 220 collective bargaining agreements, on sector or company level, in the different economic branches. By this means, it guarantees the employees of the concerned sectors and companies, better conditions than the minimum wages provided for by the law, in particular higher wages than the minimum wage, as well as a continuous and automatic progression of these wages. A CBA also means improved working conditions and a better conciliation of work and family life.

Representation in the social security, social and labor jurisdictions

The OGBL defends your rights to a good social security coverage and an adequate pension in the governing bodies of the different social insurances in Luxembourg: Caisse nationale de Santé, Caisse nationale d’Assurance Pension, Assurance Accident, Centre commun de la Sécurité sociale.

In addition, the OGBL defends employees before the labor and social security courts and at the level of the Mixed Commission.

Assistance in case of collective dismissal or bankruptcy

In situations of threats to employment or collective dismissals, the OGBL negotiates plans to maintain employment or social plans, with the aim of avoiding or reducing the number of dismissals and their consequences, and to obtain financial compensation that is more favorable than provided for by law.

In case of bankruptcy, the OGBL organizes information meetings that those affected obtain bankruptcy compensation as well as any salary arrears and other sums due.

Strike compensation

If the OGBL is prompted, as a last recourse, to go on strike in a company or in a sector in order to force the employer to satisfy the demands of the concerned employees, the OGBL pays strike compensation to its members from the 3rd day of the strike onwards.

Interventions at the national political level

Besides all these services, it should not be forgotten that the OGBL defends the interests of employees, pensioners and their families towards the political decision-makers at the national level. That is how it has been able to achieve significant improvements in the protection of purchasing power, social protection, working conditions and quality of life of employees. Let us mention just a few recent examples:

- the full adjustment of wages and pensions to changes in the cost of living (index),
- the regular adjustment of the social minimum wage and its recent increase,
- improvements of the legislation on the organization of working time (PAN law),
- the introduction of new health insurance benefits,
- the introduction of a 26th statutory leave and an additional public holiday.

All services are described in more details in French and German language on our website hello.ogbl.lu under “Nos services” or “Unsere Dienstleistungen”.
