

WORK TO LIVE, NOT JUST TO SURVIVE!

It's official: the government has decided there will be no increase the social minimum wage - ignoring reality.

**1 IN 7 PEOPLE
LIVE IN POVERTY**

DIGNITY THROUGH WAGES: Every 7th worker in Luxembourg lives in poverty! Work must ensure a decent standard of living without having to rely on social security. Wages must be a **fair recognition of our efforts**.

WE NEED +300 €

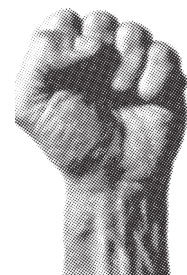

To guarantee an **adequate** social minimum wage (SSM), a **structural** increase of 12% (i.e. around 300€) is, however, essential. And this is precisely what a **European directive** calls for when referring to an adequate minimum wage.

**HANDS OFF
MY INDEX!**

LET'S PROTECT OUR PURCHASING POWER: An attack on the indexation system is already being prepared. We reject any manipulation of the mechanism that protects our **purchasing power** 🛒.

THIS ATTACK AFFECTS US ALL ! By targeting the the minimum wage and the index, the wages of all workers are under threat. After 2 years of attacks on workers, we have reached a turning point :

**TOGETHER, LET'S DEFEND
OUR WAGES & OUR DIGNITY!**

SEE YOU **12.05.2026 → 18:00**
